## CAUTION: FIRECRACKERS ARE DANGEROUS

The Family Clinic at Lago Hospital reported two cases of firecracker injuries treated yesterday: one on the hand and one in the eye. These incidents occurred prior to the allowable time period designated by the local police authorities: December 31 - 6:00 p.m. to January 1 - 6:00 p.m. To minimize the possibilities of injuries, parents should exercise proper supervision over their children when they light firecrackers and permit them to do so only during the above-mentioned time period.

## ACID PLANT COMES DOWN AGAIN

The Acid Plant (SAR) which came up on Monday after four days of repairs came down again last night due to a split tube in the waste heat boiler. It is expected that the unit will remain out of service for several days.
